Professional Summary

Data Analytics and Business Intelligence professional skilled in SQL, Python, Excel, and Power BI, with hands-on experience building analytics solutions, KPI dashboards, customer analytics, and predictive forecasting models. Experienced in data cleaning, ETL, exploratory analysis, statistical analysis, data modeling, and visualization to generate actionable business insights. Strong foundation in business/product analytics, KPI development, performance analysis, and data-driven decision support.

Core Competencies

Business Intelligence · Data Analytics · Business Analysis · Product Analytics · Data Visualization · Predictive Analytics · Dashboard Development · Data Cleaning · ETL · Data Modeling · KPI Reporting · Forecasting · Statistical Analysis · Decision Support · Analytical Problem Solving

Technical Skills

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL (Complex Joins, Aggregations, Subqueries, Views, Data Transformation)

Data Analytics: EDA, Data Cleaning, Validation, Transformation, Feature Engineering, Time-Series Analysis, Statistical Analysis, Data Pipelines, Data Storytelling

BI & Visualization: Power BI, Power Query, DAX, Data Modeling, KPI Dashboards, Interactive Dashboard Design, Data Visualization, Business Reporting

Business/Product Analytics: Customer Segmentation, Retention & Conversion, Revenue Analysis, User Behavior, Performance Analysis, Stakeholder Reporting, Data-Driven Decision Making, A/B Testing

Excel & Tools: Advanced Excel (Pivot Tables, Power Query, VLOOKUP, Conditional Formatting), Microsoft PowerPoint, Microsoft Word, Overleaf, Git, GitHub, Google Colab, Kaggle, Jupyter

Projects

1.) Enterprise OTT Streaming Business Intelligence & Customer Analytics Platform k

Tools: Python · Power BI · DAX · Excel · Pandas · Matplotlib

Impact: Built an end-to-end analytics and BI solution to analyze OTT customer engagement, content performance, retention, conversion, and revenue trends.

- Processed and validated raw streaming data using Python (Pandas), performing data cleaning, transformation, and exploratory analytics to analyze customer behavior, engagement, content performance, and revenue trends.
- Designed a multi-page Power BI dashboard covering Executive KPIs, Customer Segmentation, Geography, Content Performance, Revenue, Retention, and Conversion, with dynamic DAX measures for key business metrics.
- Implemented drill-throughs, slicers, bookmarks, and interactive navigation to transform analytical findings into business insights and data-driven decision support.

2.) Gold Market Intelligence & Predictive Forecasting System k

Tools: Python · Excel · Power BI · XGBoost · LightGBM · CatBoost

Impact: Developed a data-driven market intelligence and forecasting system to analyze gold price trends and relationships with macroeconomic indicators across global and Indian markets.

- Collected, cleaned, validated, and transformed multi-source financial datasets using Excel and Python, performing exploratory and time-series analysis and engineering lag, rolling, and other time-series features.
- Developed and compared XGBoost, LightGBM, and CatBoost ensemble models using MAE, RMSE, and R^2 to evaluate forecasting performance and identify market trends.
- Built Power BI dashboards visualizing price trends, macroeconomic indicators, market relationships, heatmaps, and forecasting results to generate interpretable insights and support data-driven decision making.

Research Publication

Research Co-Author

2025

“Enhancing YOLO with Rotated Bounding Boxes and ResNet50 Backbone for Accurate Orientation-Aware Object

Detection,” *Proceedings of the ICICC 2026*, hosted on SSRN. Achieved a 13.5% increase in mAP and an 18% improvement in rotated IoU on the DOTA dataset using a custom circular IoU loss function. [View Publication]

Education

Chandigarh University

Bachelor of Engineering (Computer Science – Artificial Intelligence & Machine Learning)

Mohali, Punjab
2022 – 2026 — **CGPA: 7.75/10**

Triple M Public School

Intermediate (Non-Medical with Computer Science)

Hoshiarpur, Punjab — 2022
Percentage: 88.8%

SGGS Sr. Sec Public School

High School / Matriculation

Mukerian, Punjab — 2020
Percentage: 75%

Training & Certifications

- Python Essentials 1 & 2** – Cisco Networking Academy & OpenEDG
- Preparing Data for Analysis with Microsoft Excel** – Microsoft Learn
- Extract, Transform and Load Data in Power BI** – Microsoft Learn
- Data Modeling in Power BI** – Microsoft Learn
